FILE NO. 126-77-1 RESOLUTION NO. 211-77

MOVING THAT A TASK FORCE BE FORMED TO TAKE ACTION AGAINST ILLEGAL DUMPING AND ACCUMULATION OF GARBAGE AND OTHER REFUSE ON VACANT LOTS IN SAN FRANCISCO

WHEREAS, Illegal dumping on vacant lots in San Francisco has become widespread; and

WHEREAS, Accumulation of trash, garbage and other refuse on these lots presents a health hazard by attracting disease-carrying rats and rodents; and

WHEREAS, Proliferation of trash also constitutes a serious fire hazard at a time when water conservation is of the utmost importance; and

WHEREAS, Trash fires tie up Fire Department equipment which is then unavailable to assist other units should a serious residential blaze flare up; and

WHEREAS, The Health Department reports that as many as 3,000 San Francisco residents are not using any garbage service despite the fact that garbage service is required by City ordinance; and

WHEREAS, Health Department inspectors have found that the majority of these households do have garbage but instead of using the required garbage service are disposing of this garbage elsewhere; and

WHEREAS, According to Fire Department officials and inspectors from the Bay Area Air Pollution Control Board, an inordinate amount of material from construction sites is being illegally dumped, particularly in the Southeast sections of the city; and

WHEREAS, There are currently laws forbidding all illegal dumping on vacant lots and penalities for owners of lots on which garbage and other refuse accumulates; now, therefore be it

RESOLVED, That the San Francisco Board of Supervisors urges that a task force be formed consisting of representatives of the District Attorney's Office, the Fire Department, the Health Department, Police Department, the Department of Public Works, the Assessors Office, and the Bay Area Air Pollution Control Board to formulate a plan to move jointly to enforce existing laws against illegal dumping, to prosecute those found guilty of illegal dumping and to locate and notify owners of property on which garbage and other refuse has accumulated so that said task force to be convened on Monday, these lots are cleaned up, April 25, 1977, by Supervisor Nelder; and, be it

FURTHER RESOLVED, That this task force also take steps to investigate the Health Department reports that approximately 3,000 households in San Francisco do not use any garbage service.

RECOMMENDING STATE ACTION WHICH WILL INCREASE THE AMOUNT OF TITLE XX SERVICE FUNDING IN ORDER THAT THE ALLOCATION TO SAN FRANCISCO CONTINUES TO SUPPORT GROUP DAY SOCIALIZATION SERVICES FOR HANDICAPPED ADULTS.

WHEREAS, Federal law enacted in 1973 placed service funding under closed-end appropriation and allocated it to states based upon population, California's share being $245.7 million per year; and

WHEREAS, San Francisco has utilized Federal service funds to provide 75 per cent of the cost of providing day activity programs to handicapped adults since 1971, prior to enactment of the closed-end appropriation; and

WHEREAS, The State of California Department of Health has adopted a changing formula which has consistently eroded the amount of service funding available to San Francisco; and

WHEREAS, County administrative costs and costs to the adult day programs have been subject to inflationary pressures, for which no accommodation has been made by the State of California; and

WHEREAS, Social reforms have resulted in greater numbers of adults being released from state hospitals to return to local communities, and the need for such day activity programs is therefore increased in order to provide safe and nuturing environments for re-entry into community life for seriously handicapped individuals; and

WHEREAS, The above combination of limited funds and increased overall service needs now threaten the ability of San Francisco to continue funding for over 800 individuals currently served; now, therefore, be it

RESOLVED, That the Board of Supervisors of the City and County of San Francisco does hereby recommend the enactment of State legislation which would provide a stable base for funding local service programs and make available to the County increased funding to cover inflationary costs, thereby enabling the County to continue to provide essential services to deinstitutionalized adults; and, be it

FURTHER RESOLVED, That copies of this resolution be sent to the Governor of the State of California, the Secretary of the State Health and Welfare Agency, the Director of the State Department of Health, and San Francisco's delegation in the State Assembly and Senate.

RESCINDING RESOLUTION #72-77 WHICH SUPPORTED THE ENACTMENT OF SB 34 IF AMENDED AND URGING THE PASSAGE OF SAID LEGISLATION AS WRITTEN

WHEREAS, This Board of Supervisors did recommend the enactment of SB 34 on the condition that said bill is amended to provide for a subvention from the State to local government to cover any revenue lost as a result of the exemption from property taxation, and,

WHEREAS, The Port of San Francisco indicates that such an amendment would insure the bill's defeat because Santa Clara and San Francisco are the only two counties in California which are affected by the imposition of a tax on merchandise in a Foreign Trade Zone, and

WHEREAS, The Port of San Francisco also indicates that the economic benefits from a Foreign Trade Zone in the City and County of San Francisco should far exceed those revenues that the tax assessor has indicated that he could generate for the City by taxing goods in the Zone, and

WHEREAS, The Port of San Francisco feels that its present plans to expand the Foreign Trade Zone will offset any possible loss of revenue to the City by generating new business opportunities in San Francisco, now, therefore, be it

RESOLVED, That this Board of Supervisors does hereby rescind Resolution #72-77 and does urge the passage of SB 34 as written, and be it

2/17/77

WHEREAS, The Department of City Planning is currently conducting a comprehensive study of zoning controls for the residential areas of San Francisco; and

WHEREAS, On May 20, 1976, this study resulted in the initiation of proposed zoning regulations by the City Planning Commission for public review and comment; and

WHEREAS, A number of these regulations have as their purpose the control of the size, shape and general architectural character of new and altered residential buildings; and

WHEREAS, The staff of the Department of City Planning was aided in the development of these regulations during the 1975-76 school year by graduate student studies conducted at the University of California Department of Architecture; and

WHEREAS, Additional studies, including graphic presentations of the [illegible] of residential buildings that would likely result from the proposed regulations and possible appropriate modifications to said regulations, would be helpful to the Board of Supervisors and the general public in understanding and analyzing the probable effect of new zoning regulations that are intended to reconcile housing costs with neighborhood preservation; and

WHEREAS, The University of California Department of Architecture can provide valuable assistance in these architectural studies if funds are made available to implement student work, and provide cost consultants and others needed for [illegible] programming and evaluation; and

WHEREAS, The National Endowment for the Arts is offering grants that would make such a collaborative effort between the Department of City Planning and the University possible; and

WHEREAS, The City's matching share will be provided by in-kind personnel services and overhead, and receipt of said Grant will not generate additional cost to the City; now, therefore, be it

RESOLVED, That the Board of Supervisors does hereby authorize the Director of Planning to accept a General Program Grant from the National Endowment for the Arts in the amount of $16,999.00 to be administered by the Department of City Planning for purposes of continuing the collaborative relationship between the San Francisco Department of City Planning and the University of California Department of Architecture in preparing illustrative case studies for San Francisco zoning and planning proposals; and, be it

SUPPORTING THE CITIES OF BURBANK, GLENDALE AND PASADENA IN THEIR EFFORTS TO PRESERVE THE HOLLYWOOD-BURBANK AIRPORT FOR THE CONTINUED USE AND CONVENIENCE OF THE PUBLIC.

WHEREAS, The Hollywood-Burbank Airport is owned by Lockheed Aircraft Corporation and is located approximately twelve miles northwest of downtown Los Angeles, in the eastern end of the San Fernando Valley, in the City of Burbank, Los Angeles County, California; and

WHEREAS, This airport serves approximately three million people residing in the San Fernando Valley, the San Gabriel Valley and eastern Ventura County and therefore is of major significance to the regional economy; and

WHEREAS, The Hollywood-Burbank Airport is the only major privately-owned air carrier airport in the United States and is recognized as a critical regional transportation facility by the Southern California Regional Airport System, the California State Transportation System Plan, and the National Airport System Plan; and

WHEREAS, It is not possible for an air carrier airport such as Hollywood-Burbank Airport to exist compatibly in today's environment unless publicly owned; and

WHEREAS, Lockheed Aircraft Corporation has resolved to divest itself of both ownership and operation of the airport, and to sell the property for real estate development should no responsible public entity purchase the facility; and

WHEREAS, Closure of the Hollywood-Burbank Airport would cause aircraft and passenger activity to be relocated to other Los Angeles Basin airports which currently are at a high level of activity, thereby placing an impossible burden upon said airports; and

WHEREAS, The loss of approximately 4,700 jobs with an estimated payroll of $65 million will adversely affect the local economy; and

BOARD OF SUPERVISORS

WHEREAS, The Board of Supervisors of the City and County of San Francisco desires to support the Cities of Burbank, Glendale and Pasadena in their efforts to insure that this important link in the air transportation system is maintained for use by the public; now, therefore, be it

RESOLVED, That this Board of Supervisors believes that the Hollywood-Burbank Airport is an integral part of the statewide air transport system and should be retained for pubiic use for the following reasons:

1. The capability to serve the expected growth in demand without increase in the airport size or damage to the environment results from the technological advances in noise abatement and carrying capacity offered by the newer generations of wide-body aircraft;

2. Its ideal geographical location provides service to a region equal to 22% of the Los Angeles metropolitan area and has easy accessibility within established freeway and roadway system; and

3. Its use as an alternate airport in inclement weather for the Los Angeles International Airport is an important transportation safety consideration; and, be it

FURTHER RESOLVED, That copies of this resolution be forwarded to his Honor, the Mayor, for transmission by him to the Congress of the United States, the Secretary of the United States Department of Transportation, the Governor, and the California State Legislature, with the request that all necessary action be taken to preserve the Hollywood-Burbank Airport for the continued use and convenience of the public.

FILE NO. 111-77 RESOLUTION NO. 964-77

ENDORSING RESOLUTION NO. 382 OF THE METROPOLITAN TRANSPORTATION COMMISSION WITH RESPECT TO TRANSIT FINANCING FOR THE SAN FRANCISCO BAY REGION WITH CERTAIN MODIFICATIONS.

WHEREAS, The Metropolitan Transportation Commission, in its Resolution No. 382, dated December 15, 1976, unanimously adopted a set of 10 decisions constituting a comprehensive plan for near- and long-term financing of public transit in the San Francisco Bay Region; and

WHEREAS, Such plan culminates months of intensive, cooperative effort involving the Steering Committee of the San Francisco Bay Region Transit Financing Study, Metropolitan Transportation Commission staff, consultants, public pollsters, the boards of directors and staffs of transit operators, including the San Francisco Municipal Railway, citizens advisors and legislative staff; and

WHEREAS, The principles contained in such Transit Financing Study are intended to provide a basis for state legislative action, while permitting further action by the Metropolitan Transportation Commission to eradicate any inequalities and disparities respecting the various transit operators in the San Francisco Bay Region, including the San Francisco Municipal Railway; and

WHEREAS, There is a need to address the financial inequities that San Francisco experiences as a result of:

1. The fact that San Francisco with its commitment to transit has had to pay for its transportation system mostly on its own while the suburban counties of the region, having committed themselves in the past to an automobile transportation system, have had the cost thereof paid by State and Federal Highway Trust funds.
2. The fact that more than 10% of the riders of the Municipal Railway ("MUNI") and the San Francisco Bay Area Rapid Transit District ("BART") live outside of the three counties which provide the tax support for MUNI and BART.
3. The fact that BART currently has available sources of financing such as the sales tax, which are not available to MUNI or AC Transit; now, therefore, be it

RESOLVED, That this Board of Supervisors does endorse the San Francisco Bay Region Transit Financing Study of the Metropolitan Transportation Commission and recommend implementation of the principles set forth in such study with certain modifications, namely, that proceeds from the one-half cent sales tax and bridge toll revenues be distributed not only to BART but also to MUNI and AC Transit on an equitable basis utilizing such factors as current ratio of operating revenues and local tax subsidies to operating expenses, service and vehicle hours provided, patronage, and need for transit within the service area based upon population, population density and median income; and, be it

FURTHER RESOLVED, That from a broader regional basis, in addition to the three county sales tax and bridge toll fund described above, there be a regional transit fund comprised of revenues from other counties in the MTC region, and any revenue available to the various Bay Area counties from the federal government for transit operating assistance, and any new State funds which might be made available, and that such money be distributed on the basis of the factors set forth immediately above; and, be it

FURTHER RESOLVED, That copies of this resolution be forwarded by his Honor, the Mayor, for transmittal to the State Legislative Representative and presentation by the latter to the members of the San Francisco delegation in the State Legislature with the request that all necessary action be taken to effectuate the intent

WHEREAS, thousands of lives are being saved every year throughout the United States because of the 55 mile per hour national maximum speed limit; and

WHEREAS, The Public Utilities Commission of the City and County of San Francisco has heretofore on March 29, 1977, by its Resolution 77-0155 approved a revised Schedule of Rates to be charged by the San Francisco Water Department for water service in San Francisco and suburban areas, on file in the office of the Public Utilities Commission; and

ENDORSING THE PLAN TO USE WELL WATER TO COOL ELECTRONIC DATA PROCESSING CENTER IN CITY HALL, AS WELL AS IN THE FIRE DEPARTMENT'S HIGH PRESSURE AUXILIARY WATER SYSTEM, AND URGING THAT PLAN BE EXPEDITED ON EMERGENCY BASIS.

WHEREAS, The City and County of San Francisco is in a crisis situation with respect to its water reserves; and

WHEREAS, The Department of Public Works has reported that the reactivation of the old City Hall well, with a pump and piping in the basement to supply all six refrigeration condensers in rooms 3 and 66, would reduce the demand on the San Francisco Water Department by 150,000 gallons per day; and

WHEREAS, If an appropriation is provided, it is proposed to immediately engage contractors to develop permanent access to the well and put it into operation so that the maximum output from the well could be used; and

WHEREAS, A realistic budget for this work is $19,000 for well clearance and testing, purchase of equipment and all installation and construction, including contingencies, and $5,000 for planning, design and administration; and

WHEREAS, The interception of the cooling water discharge from room 3 to the sewer with a pump, piping and safety equipment in the basement to force the water into the Fire Department's high pressure auxiliary water supply system would reduce the Fire Department's demand on the Water Department by an additional 140,000 gallons per day; and

WHEREAS, A conceptual design has been developed which would safeguard the auxiliary water supply system against loss if a malfunction occurred in City Hall; and

WHEREAS, Because of an overload on existing City Hall electric service facilities, energy for the high pressure pump's motor will require a separate special service facility from Pacific Gas and Electric Company; and

WHEREAS, A realistic budget for this work is $46,000 for a high pressure pump and safety equipment, and all installation and construction, including contingencies, and $8,000 for planning, design and administration; now, therefore, be it

RESOLVED, That this Board of Supervisors does hereby endorse the plan to use well water to cool the Electronic Data Processing Center in City Hall and for use in the Fire Department's high pressure auxiliary water system, based on the report of the Department of Public Works dated April 22, 1977, which would save a total of 290,000 gallons of water a day, and urges that this plan be expedited on an emergency basis, bringing long range benefits for all residents of San Francisco.

WHEREAS, In May, 1974, the California Public Utilities Commission issued Rule 14.1 regarding the prohibition and curtailment of various forms of energy usage, and

WHEREAS, Section B-1 of Rule 14.1 limited the use of outdoor commercial lighting to the operation of time, temperature, window and display lighting and the illumination of only two outdoor signs during normal business hours, and

FILE NO. 246-77 RESOLUTION NO. 336-77

URGING THE CONSTRUCTION OF A JAPANESE AUTOMOBILE PLANT IN SAN FRANCISCO AND EXPRESSING INTENT TO GIVE FAVORABLE CONSIDERATION TO ALL NECESSARY LEGISLATION IN RESPECT THERETO.

WHEREAS, there have been reports of an interest on the part of automobile manufacturing entities of Japan in the construction of an automobile assembly plant in the State of California, and more particularly in the City and County of San Francisco, and

WHEREAS, the Governor of the State of California has reportedly discussed the construction of such an automobile assembly plant with the chief executive officers of the manufacturers of Datson, Honda, and Toyoto automobiles; and

WHEREAS, the construction of such a plant in San Francisco would have enormous benefits for local residents and taxpayers;

WHEREAS, it has been estimated by local economists and accountants that such a plant in San Francisco would result in an annual payroll of $65,000,000 and the hiring of 5,000 employees, and

WHEREAS, 5,000 new jobs could thus be available for San Francisco residents and would substantially reduce local unemployment and

WHEREAS, It has also been estimated that indirect economic benefits arising from the consequent utilization of additional workers in transportation-related functions such as the Port of San Francisco, truck, rail and airline jobs would amount to approximately $250,000,000 a year or more, and

WHEREAS, Indirect economic benefits could result by way of other increased economic activity such as restaurant and related businesses, and

BOARD OF SUPERVISORS

WHEREAS, Reports relating to the establishment of a San-Francisco-based plant have involved locating the plant in the southeast section of the City, and

WHEREAS, Southeast San Francisco once again could be developed into a thriving industrial area through the construction of an automobile assembly plant

WHEREAS, such a plant could also stabilize the city's tax base while curbing the present flow of middle-income families from San Francisco; now, therefore, be it

RESOLVED, That the Board of Supervisors of the City and County of San Francisco does enthusiastically endorse and urge construction of a Japanese automobile plant in the City and County of San Francisco and be it

FURTHER RESOLVED, that the Board of Supervisors for the City and County of San Francisco does hereby declare its intention to give favorable consideration to any legislation necessary or appropriate to facilitate the placement and construction of a Japanese automobile assembly plant within the boundaries of the City and County of San Francisco, and does hereby invite and welcome executive officers and other personnel of Japanese automobile manufacturing entities to San Francisco for purposes of taking all steps attendant to constructing such a plant in San Francisco and offers its assistance in any other way deemed proper and advisable to ensure the carrying out of the intent of this resolution.

FILE NO. 12-77-25 RESOLUTION NO. 357-77

MEMORALIZING THE STATE LEGISLATURE TO ENACT LEGISLATION THAT WOULD PROVIDE FOR THE MANDATORY LICENSING OF ALL ESCORT SERVICES IN CALIFORNIA, SET PRECISE STANDARDS FOR THEIR OPERATION, AND REQUIRE THE DISPLAY OF THEIR LICENSE NUMBER ON ALL PRINTED AND ADVERTISING MATERIAL

WHEREAS, Escort services provide the visitors to San Francisco and the entire State of California with legitimate accompaniment and information; and

WHEREAS, Many visitors rely on these services when they come to California; and

WHEREAS, The District Attorney's Office reports that escort services have become prime businesses for illegal activities such as prostitution, robbery, and other means of defrauding the client; and

WHEREAS, Local ordinances requiring escort service licensing can be avoided by maintaining a business address just outside the city or county limit while conducting the business activity in an adjacent county; and

WHEREAS, Statewide licensing of escort services is the only comprehensive means of ensuring that defrauded clients have a means of recourse; now, therefore, be it

RESOLVED, That this Board of Supervisors does hereby urge the California State Legislature to enact legislation that would provide for the mandatory licensing of all escort services in California, set precise standards for their operation, and require the display of their license number on all printed and advertising material, and, be it

FURTHER RESOLVED, That copies of this resolution be forwarded to His Honor, the Mayor, for transmittal to our State Representative with the request that a member or members of our State Legislative delegation introduce and secure the passage of such legislation.

EXPRESSING THE POLICY OF THE CITY AND COUNTY OF SAN FRANCISCO TO IMPLEMENT A MECHANIZED STREET SWEEPING PROGRAM WITH CONTROLLED PARKING TO BE COMPLETED BY DECEMBER 31, 1978;

WHEREAS, The Department of Public Works expends approximately $7 million per year and employs 277 workers plus 127 CETA personnel to clean the streets of San Francisco, and

WHEREAS, 1,700 curb miles plus 110 miles of curbs along the center islands of San Francisco are cleaned by the Bureau of Street Cleaning, 571800 curb miles are cleaned annually by mechanical sweepers, and 59,600 curb miles are annually swept manually, and

WHEREAS, The cost of mechanical sweeping with controlled parking as now utilized in the Richmond District is $5.82 per curb mile, the cost of mechanical street sweeping without controlled parking as carried out in the Sunset District and certain other areas is $8.28 per curb mile, and the cost of manually sweeping all other areas of San Francisco totals $75.51 per curb mile exclusive of overhead, and

WHEREAS, Despite all efforts to date, the streets of San Francisco remain unsatisfactorily cleaned, and

WHEREAS, The Department of Public Works has indicated that the annual rough estimate for providing mechanical sweeping for all feasible areas of The City including equipment, labor (including overhead), maintenance of equipment, materials and supplies, fuel and signs for controlled parking to be approximately $3,359,000, and

WHEREAS, The savings per year of such a program would be at least $1 million with greatly improved service because mechanization with controlled parking will enable litter to be removed from parking areas, permit greater using of flushing, prevent the blowing of unswept litter from these areas about the streets, and by Oakland's experience controlled parking permits streets to be swept 40% faster, and

WHEREAS, The Department of Public Works by letter of April 13, 1977 has recommended a tentative program and budget for mechanical street sweeping with controlled parking, now therefore be it

RESOLVED, That it be the policy of the City and County of San Francisco to implement a mechanized street sweeping program with controlled parking wherever feasible throughout San Francisco to be completed by December 31, 1978.
